

“THE ORIGINAL”

The original *STC Environmental Specialty Products* patented concrete transition covers provide security on the worksite by decreasing potential hazards in the event of a joint, coupling, or pipeline failure. Protect your workers today!

10' Line Pipe STC-10FLP

Putzmeister Transition Cover STC-2ENC

Schwing Transition Cover STC-2E

- ◆ Transition covers reduce liability while pumping concrete in the demanding and fast-paced construction site setting. They can also be completely customized to your company's needs!
- ◆ Engineered to protect operators and construction crews around concrete pours, a properly installed transition cover keeps the crew safe and reduces cleanup substantially.
- ◆ Products can cover features such as elbows, straight line pipes, boom pumps, and line pumps, and are designed to fit various truck models including *Putzmeister* and *Schwing* vehicles.
